SUMMARY

Results-driven React.js Developer with expertise in crafting exceptional user interfaces. E-commerce platform creation led to ₹30K revenue and 1,000+ visitors. Proficient in React JS, JavaScript, HTML, and CSS, I'm passionate about user-centric design and turning ideas into innovative code for remarkable web experiences.

EXPERIENCE

Freelance Developer   08/2023 – present

- Developed an e-commerce platform and a blogging platform featuring a user-friendly content management system for easy updates and management.
- Utilized a technology stack that includes React JS, Next JS, JavaScript, HTML, and CSS.
- Focused on creating intuitive and visually appealing user interfaces tailored to client specifications.
- **Technologies: React JS, Next JS, JavaScript**

Full-Stack Developer Intern   04/2023 – 06/2023
Rallypoint Consultancy & Infrastructures Pvt. Ltd.   New Delhi

- I played a key role in crafting an e-commerce platform specializing in custom salts, complete with a user-friendly CMS for seamless product management.
- Upon launch, the website thrived, generating a total revenue of ₹30K while attracting over 1,000 visitors.
- My contribution ensured a smooth and enjoyable shopping experience for our customers.
- **Technologies: React JS, JavaScript, HTML, CSS**
